THE PILOT

Patriot Field

Come Fly With Us!

Club Officers

President:

Frank Martinez

Vice- President:

Hans Wittek

Sec/Treasurer.

Ross Jackson

Safety Coordinator:

Stumpy Caldwell

Pets:

An issue about members concerns that have pets and whether or not they can be brought to the field has never been a real problem, or an issue. The only concern that was discussed was that if they were brought to the field, that the owners were responsible for their care and cleanup. This is just a common courtesy to members that don't bring pets to the field. So let me say that pets are always welcome at the field. But if your pets are normally aggressive you

may want to reconsider bringing them with you.

Patriot Field Grand Opening:

The club's new field was packed with other club members from Alamogordo, N.M., Albuquerque N.M., Las Cruces N.M., Horizon, and TX. Houston Tx., Tucson AZ, and spectators from the surrounding area. Jim Rice District V.P. and Assistant V.P. Mark Johnston were also in attendance. Everyone was blessed with great weather, and plenty of great flying, and Member Hans Wittek & A.M.F. Lounge sponsored the brisket BBQ. We have officially opened our new field and are just waiting the completion of the area's largest RC dirt track in the El Paso area. Special thanks to all the bond holders and members that did show up and made this grand opening a success, and disappointed to say that member turnout was not as great as expected. Special awards from Jim Rice were given to E.P.R.C. Members Frank Martinez, Hans Wittek, Ross Jackson, Stumpy, Caldwell and Danny Sander.

Tables

The new tables under the covered area have become a real problem. Some members refuse to clean up after themselves, and for this reason the tables will not be used for fueling at all. When you fuel your aircraft you may use the stands on the flight line or on the ground, but the tables are not to be used for fueling or removing fuel. And let us not forget that the tables are not chairs, storage or holding areas. After you put your planes together Please move your stuff to allow other members to complete their set ups as-well. Courtesy always pays.

TRASH:

As everyone knows trash pickup is the responsibility of everyone. Please use the trash cans. And if you see that they are full then empty them! If you need a new liner then get with an officer for one. We all need to keep up the maintenance of the new field.

2010 Bond Reimbursement:

The first list of Bond reimbursement for 2010 will be paid to those members' holding certificate numbers **(4, 16, 40, 44, 48,)** If any of these numbers belong to you, you may choose to use them toward the upcoming clubs yearly dues. All you need to do is get with an officer and your certificate will be updated for that purpose, but please let us know as soon as possible . If any bond holder chooses to do this then the next certificate number will be paid out.

Next Club Meeting:

Our next club meeting will be on Saturday, September 5, 2009 at 9:30: am. We will be hosting the meeting at Patriot Field. We would hope that you will attend.

About Our Organization...

The El Paso Radio Controllers are in Northeast El Paso at 6121 Stan Roberts Rd. We are dedicated to the preservation and development of the radio Control Hobby. Our members usually gather on Tuesday, Thursday, Saturday and Sunday at around 8: am. Next time you are in the area we would ask that you stop by and visit...
